

Spiritual Signs

“LOOK ABOUT AND SEE, FOR YOU SHALL FIND SIGNS IN THE SUN, THE MOON AND THE STARS.”

Jesus.

Our daily lives are filled with spiritual messages and signs designed just for us. They appear on our path to teach us lessons, to help us make decisions, or simply to give

us a preview of things to come. They can show us if we're headed in the right direction, or nudge us to change course if the road we're on no longer serves our best interests. The universe is always trying to communicate with us, it never stops sending us guidance and assistance in order for us to achieve to our highest level which is the reason for our existence.

But before we can reap the full benefits of these helpful messages and signs, we have to learn how to recognize them.

Since they're hardly ever loud or intrusive, they can be quite easy to ignore or overlook. But the more we pay attention to our surroundings and cultivate our powers of observation, the more we start to see useful information all around us.

Pay attention when you notice any of the following:

- Occurrences that you may call coincidence, except that the timing is too perfect.
- Dreams that offer you messages or suggestions.
- Books that speak directly to where you are in life.
- Roadblocks on your current path. If something in your life seems much harder than it should, it may be a sign that you are supposed to take another look to find a different route. When you are listening, things can feel effortless.
- Messages that arise during meditation.
- Gut feelings or instincts that you cannot ignore.
- A sense of inner knowledge that something is true, even though it appears completely crazy, unfeasible or unachievable.
- Song lyrics that pop up over and over again.
- If you happen to see the same numbers repeatedly, you need to find out why. Different

numbers have different meanings.

- Answers to prayers that direct your path.
- Something that somebody says to you that cuts right to the core of you.
- People that appear to you who share your interests or calling and guide the way or share the path with you.

I have a lot of experience interpreting and understanding different signs and why they appear to us when they do. I can help you to recognize information that would have otherwise gone over your heads. I can validate what you possibly already suspect to be true, or maybe surprise you with insight that enables you to look at a situation in a new light.
